

Ribbon Hexagon

Ribbon Hexagon

Ribbon Hexagon Acoustic Panels combine design, with craftsmanship beautifully crafted for a unique look and feel unlike the typical slat walls you come across. The Ribbon Hexagon panels feature a tile pattern that exudes a visually appealing geometric charm. Each tile has been carefully placed to achieve a blend of textures and spaces elevating the aesthetic, complemented by a backdrop of felt for a flawless final touch. The sophisticated design brings out the beauty of the veneer emphasizing its coating that enriches the wood grain patterns creating a robust and low maintenance surface look. Transform your space by choosing from three acoustic felt colours: white, for a touch of brightness, subtle grey tones for an elegant look or classic black hues, for timeless appeal—providing flexibility to complement any area in your home. This quality sound-absorbing panel is designed to enhance the look of Scandinavian style interiors by blending aesthetics with practical functionality without the need for constant maintenance.

RIBBON-HEXAGON

Ribbon-Hexagon is part of the Wallsystems by Glimakra of Sweden product portfolio. We are a Swedish company with value-driving factors such as Scandinavian acoustic design, greater flexibility and higher quality. Based on these, we create favorable sound landscapes for different types of environments. With broad knowledge and long experience, we develop and manufacture products in our own factories in Glimåkra and Tranås. We are the largest in Sweden in wood veneer and through an ongoing collaboration with several prominent designers, we are always at the forefront when it comes to acoustic design.
